

# PRESEPE IN SEGATURA

A large, detailed wooden nativity scene (presepe) is the central focus of the image. It is carved from light-colored wood and depicts the birth of Jesus. The Virgin Mary is seated on the left, holding the infant Jesus. To her right, Joseph is seated, holding a staff. In the background, a figure of the infant Jesus is visible. The scene is surrounded by various animals, including a cow on the left, a donkey in the center, and several sheep on the right. The entire scene is set against a dark, textured background, possibly representing a cave or a stable. The lighting is dramatic, highlighting the intricate details of the carvings.
